We have attempted to staff the lab so that students may have access to complete homework assignments during the times marked “OPEN LAB”. Access will correspond closely with this schedule. This may not be the case due to illness, absence, etc. If the room is to be used during the OPEN LAB time for another purpose, an attempt will be made to post this in adequate time for students to adjust their schedules.

LAH 205 is locked for security purposes. Please go to LAH 201 to request admittance to LAH 205. The Learning Assistant for the Management Department is normally available to help you, but if you need assistance and not just access, it is advisable to make an appointment during the Learning Assistant’s working hours, which are posted in LAH 201. Call 732 224-2551.
